Introduction and Purpose

Riot Games Limited, a limited liability company registered in the Republic of Ireland, has established these rules for the competitive play of VALORANT in order to unify and standardize the rules used in competitive play. These Challengers Rules are in addition to, and not in lieu of, the VALORANT Champions Tour Global Competition Policy (“Global Policy”). In the event of a conflict between the Global Policy and these Challengers Rules, the provisions that are most protective of Riot (as determined by Riot in its sole discretion) will govern. The English version of these rules will supersede any translation.

This document lays out Riot’s rules which all tournaments operating under the “VALORANT Challengers” or “Challengers” banner must include in their individual rulesets. This document is not to be used as a standalone rulebook, and each League may add new league specific rules in a separate document, as long as these are approved by Riot Games and do not conflict with these rules or the Global Policy.

These rules will apply to and be binding on each of (1) the individual (natural person), entity and/or group (“Owners”) who registered a team to participate in a Challengers event (“Team”), and (2) to each Team’s players, managers, coaches, owners and other representatives. A Team’s players, managers, coaches, Owners and other representatives are referred to as the “Team Members”. Standardized rules benefit all parties who are involved in the professional play of VALORANT, including the Team Managers, Team Members and Teams. Rules that impact all regions can be seen here: <https://www.dropbox.com/sh/xfy0lbve0hdr0ju/AAABN1YgdJVDBItvUdIXs2qza?dl=0>

*****Each Team Member must read, understand, and agree to these Challengers Rules, additional Challengers Region specific rules and the Global Policy before participating in any Challengers event.*****

1. Team Member Eligibility

To be eligible to compete in the League, each Player must satisfy all of the following:

1.1. Player Age

- 1.1.1. No player shall be considered eligible to participate in any Challengers Competition before their 16th birthday, defined as having lived 16 full years.
- 1.1.2. If a player is 16 years of age or older but under the age of majority in their country of residence before the start of the Official Competition, they may still compete in the Official Competition if (a) they meet the other eligibility criteria in these Challengers Rules and the Global Policy, and (b) a parent or legal guardian accepts these Challengers Rules and the Global Policy on behalf of the player, and consents to the player's participation in the Official Competition using a parental consent form provided by the Challengers Officials.

1.2. Residency & Representation

- 1.2.1. A Player can be an EMEA Resident and a Locally-Trained Representative ("LTR") simultaneously. Players that have not claimed LTR status in a Challengers Region will be considered a "Non-Representative".
- 1.2.2. Each Team will be required to have a minimum of three (3) LTRs and three (3) EMEA Residents on their starting roster at all times during any Challengers Season.
- 1.2.3. LTRs are defined as players who have fulfilled one or more of the following criteria:
 - 1.2.3.1. The Player has legally resided and been primarily present in the competitive area of the Challengers for no less than 36 out of the last 60 months immediately prior to their participation in the first game of the applicable competition.
 - 1.2.3.2. The Player has legally resided and been primarily present in the competitive area of the Challengers League for at least 36 months after their 13th birthday, defined as having lived 13 full years.
 - 1.2.3.3. The Player has played in or was on the roster of a Challengers Team for the majority of applicable regular season matches in a Challengers League in no less than two of the last three splits immediately prior to their participation in the first game of the applicable competition.
 - 1.2.3.4. Additionally, a split will count towards the LTR requirement for a player who has been on the roster of a Challengers Team for the majority of the split, even if the player has not been actively participating in the respective Challengers League, as long as they have not participated in any other Challengers League.

- 1.2.4. A Player may only claim LTR status for the Challengers region in which they are currently participating and may only be an LTR of a single Challengers region at one time. Upon joining another Challengers League, the Player will have to prove their LTR status for the respective Challengers League, otherwise they will be considered a Non-Representative.
- 1.2.5. A player will not be considered an LTR until they have claimed this status with the respective Challengers League.
- 1.2.6. Players are not required to claim LTR status and may choose to remain a Non-Representative despite being eligible.
- 1.2.7. Residents are defined as players that, at the time of registration to the Challengers League, are either:
 - 1.2.7.1. A lawful permanent resident of a jurisdiction in the EMEA region for at least six (6) months.
 - 1.2.7.2. A citizen or national of a country in the EMEA region.
- 1.2.8. A player may only be a Resident of a single Region at any point in time, regardless of whether that player has lawful resident status in multiple Regions. Any player who relocates to a new region, will remain a resident of their prior region until the one-year anniversary of their relocation.
- 1.2.9. Players may prove Residency and LTR eligibility by submitting documentary evidence of eligibility. There are two general categories of evidence: government-issued documentation (e.g., government benefits records, military/draft registration papers) and private documentation (e.g., school records, deeds, leases, homeowner association documents, utility bills, bank records/statements, tax returns, insurance documents, medical records & employment records).

Minors may also have a parent or guardian prove Residency or LTR status on their behalf by first, providing documentary evidence of the parent- /guardian-child relationship (e.g., a birth certificate) and second, submitting documentary evidence belonging to the parent/guardian, as outlined above.

1.3. Work Eligibility

- 1.3.1. Each Player must submit proof, prior to being added to a Team's Challengers Roster, that they will be work-eligible in their respective jurisdiction and/or Challengers host country/countries.

1.4. Player & Team Eligibility

- 1.4.1. All Players may only compete in one Challengers League at a time.
- 1.4.2. Players may not be registered on a VCT and Challengers roster at the same time.
- 1.4.3. Players competing in a Challengers League are ineligible to compete in a VALORANT Regional Circuit (VRC) event.

1.5. Team Member Vetting

- 1.5.1. As part of the Team Member registration process, Teams must submit the username and Riot ID for their main and up to one secondary (smurf) VALORANT account used in the last 3 months, for each member of the Team, to Challengers Officials. Failure to do so may result in penalties.
- 1.5.2. The vetting process will consist of anti-cheat and behavior checks across the submitted accounts and determine whether or not they are in line with the standards we expect from Players in Challengers.
- 1.5.3. Challengers Officials will inform Teams of their Players' behavior check results upon completion.
- 1.5.4. If a Player fails the anti-cheat and/or behavior check, a report containing information on why the Player did not pass vetting will be compiled. Challengers Officials may share this report with the Team upon receiving written permission from the Player.
- 1.5.5. Players that fail the checks may also be subject to penalties depending on the severity of the case. At minimum, players will receive increased monitoring and be expected to demonstrate improved behavior during the next round of checks.
- 1.5.6. Players that pass the check may still be subject to official sanctions such as warnings, suspensions and/or fines based on the specific results.

1.6. Ranking Requirement

- 1.6.1. All players on a Team's roster must have held a ranking for VALORANT of Ascendant 1 or above at the time of registration, or during the preceding Act, for any Official Competition.

1.7. No Riot Employees

- 1.7.1. Team Owners and Team employees may not be employees of Riot Games Limited. ("RGL") or the Challengers entity or any of their respective affiliates. "Affiliate" is defined as any person or other entity which owns or controls, is under the ownership or control of, or is under common ownership or control, with the named Riot entities above. "Control" shall mean the power, through any means, to determine the policies or management of an entity, whether through the power to elect, appoint or approve, directly or indirectly, the directors, officers, managers or trustees of such entity or otherwise.

2. Ownership

2.1. Ownership Restrictions

- 2.1.1. The VCT Concurrent Ownership Policy prohibits an owner or operator of a VALORANT team from having ownership or control of, or undue influence over, more than one team that competes in an Official Competition.
- 2.1.2. The VCT Concurrent Ownership Policy applies to all Challengers Leagues. The full policy can be found here - [https://www.dropbox.com/sh/xfy0lbve0hdr0ju/AAAPkQWHEh7D7iNtNGx63lyGa/Rules%20and%20Policies%202022?dl=0&preview=VCT+Concurrent+Ownership+Policy+\(Dec.+2020\).pdf](https://www.dropbox.com/sh/xfy0lbve0hdr0ju/AAAPkQWHEh7D7iNtNGx63lyGa/Rules%20and%20Policies%202022?dl=0&preview=VCT+Concurrent+Ownership+Policy+(Dec.+2020).pdf)

- 2.1.3. An Organization or Team may only own one Challengers Team across all Challengers Leagues.
- 2.1.4. Organizations or Teams are only allowed to participate in one Challengers League per split. Any changes can only take effect between splits and must follow the procedures and timeline outlined by the relevant Challengers Officials.

2.2. Recognition of Ownership

- 2.2.1. The League shall have the right to make final and binding determinations regarding Team ownership, issues relating to the multiple Team restriction and other relationships that may otherwise have an adverse impact on the competitive integrity of the Challengers League. Any person that petitions for ownership into Challengers can be denied admission at the sole discretion of the League. Team Owners agree that they will not contest any final determination of the League in connection therewith.
- 2.2.2. If an Owner is found to have any financial interest or benefit or any level of influence in another Team, the Owner will be required to immediately divest said interest in one of the two Teams and may be subject to punishment by the League.
- 2.2.3. Ownership of a Team competing in a Challengers League should be clearly indicated by the starting lineup or Organization to Challengers officials.

3. Roster Rules

3.1. Starters & Substitutes

- 3.1.1. Each Team must maintain, at all times during the Challengers Season, five players in the Team's starting lineup ("Starters"). A Team has the option of adding two additional players to act as substitutes ("Substitutes").

Note: Travel accommodations will only be covered for one substitute. Challengers Official have the right to disqualify any Team with an incomplete roster.

3.2. Minimum Roster Requirements

- 3.2.1. All Starters, and any Substitute who replaces a Starter, must be eligible to participate in Challengers competition. Teams must comply with the minimum roster requirement at all times during the Challengers competition. If at any point a Team's roster falls below five players, that Team may be disqualified or otherwise sanctioned, unless given permission to drop below the minimum roster by Challengers Officials, at their sole discretion.
- 3.2.2. If a Team earns the right to progress to another stage of the Challengers competition (e.g. Challengers Ascension) the right is contingent on the Team retaining a minimum of three players that were on their Roster and played at least one official Challengers match during the qualification process.

3.3. Multiple Teams

- 3.3.1. A Team Member will not be allowed to compete for more than one Team simultaneously and cannot be listed on the Roster of more than one Team.

- 3.3.2. A Team Member cannot have a contractual or financial arrangement with another Team unless explicitly allowed by the League in writing.

3.4. Submission of the Roster & Team Registration

- 3.4.1. Before the start of the Challengers competition, each Team must register its roster (including all Starters, any substitutes and coaches) using the tools and forms provided by Riot or the Challengers Officials. Except as set forth in Section 3.4.2, no changes to a Team's roster will be permitted after a Team's registration has been processed without the prior approval of the Challengers Officials (including for changes due to sickness, visa issues, etc.)
- 3.4.2. All Challengers Team Rosters, including LTR status, will be tracked and shared with all Challengers League Officials via an internal player database. For the avoidance of doubt, this is not the "Global Contract Database" that is in place for the VCT and will not provide the poaching and tampering protections that the GCD offers.

3.5. Roster Changes

- 3.5.1. A Team may complete trades involving players on other Teams, sign new players or free agents or otherwise change the players on its roster during any time outside of the Roster Lock Periods, using the tools and forms provided by Riot or the Challengers Officials.
- 3.5.2. The Roster Lock Periods will change from year to year and will be communicated to Teams by Challengers Officials. Unless otherwise agreed to by the Challengers Officials, the addition or removal of a player from the Team's roster at any time during the Roster Lock Periods is a violation of these rules and the Global Policy.
- 3.5.3. In the case of extenuating circumstances, such as temporary visa issues, a competitive suspension or a medical emergency the roster requirements may be waived temporarily. Grant of this waiver is at the sole discretion of the League.
- 3.5.4. Any Team Member who is dropped from a Team's Roster may not rejoin that Team's Roster until a minimum of three weeks have elapsed after the effective date of the Team Member's prior removal from the Team's Roster.

3.6. Substitutions

- 3.6.1. Any substitution must result in the Team having an eligible Roster or Starting Roster.
- 3.6.2. For Matches involving more than one Map (i.e., a best-of-three or best-of-five Match), a Team may replace their then-current Starters with Substitutes in between Maps, provided that the Team informs the opposing Team and receives approval from the Referees of such substitution no later than five minutes after the conclusion of the previous game.
- 3.6.3. In the event that a Player disconnects during a map and is unable to return within the allocated pause time, the Team will be permitted to replace them with a Substitute from their Roster. The lobby will need to be remade, and the game manually reverted to the previous game state.
- 3.6.4. In the event of an emergency at any point during a Match, a Team will be given up to ten minutes to produce an eligible Substitute on-site. If a replacement cannot be

found then the Team will forfeit. Challengers Officials will determine if an incident qualifies as an emergency. Any substitute must be an eligible member of the Team roster.

- 3.6.5. For any offline stages (if applicable), teams must have at least one designated substitute present at all times.

3.7. Coaches

- 3.7.1. Teams may have one coach that is designated as the Main Coach that is allowed to communicate with the Team's Players during the Agent and Map selection process for each Match, timeouts, half-times, in between regulation and overtime, and in between Maps (if applicable).
- 3.7.2. If a Team has a coach designated as the Main Coach, then that Main Coach may be present for every Match in which the Team participates.
 - 3.7.2.1. For live, in-person tournaments ("LAN Events"), the Team's designated Main Coach may be on site throughout each such Match.
 - 3.7.2.2. For online tournaments ("Online Events"), the Team's designated Main Coach may be connected to the voice communication system in the lobby and will only be allowed to talk to players during the Agent and Map selection process for each Match, timeouts, half-times, in between regulation and overtime, and in between Maps (if applicable).
- 3.7.3. The Team's designated Main Coach is only permitted to be in the Match Area during Agent and Map selection, Timeouts, Half-Times, in between regulation and overtime, and in between Maps. For the purposes of online competition, any room in which the player competes will be considered part of the Match Area.
- 3.7.4. At the Challengers Officials's sole discretion, up to two (2) other coaches and/or Team personnel may be provided with a means to communicate with the main coach during the Match. The other coaches and/or Team personnel may only communicate with the Main Coach using the means provided by the Challengers Officials.
- 3.7.5. The other coaches and/or Team personnel are not permitted to be in the Match Area, and may not communicate with the Players during a Match unless authorized by the Challengers Officials.

Note: For Open Qualifiers, the use of "Coach Slots" will be determined by the Challengers Officials and communicated to Teams in advance of the tournament. For Challengers matches, Coach Slots will be permitted. (Coach Slots Current Functionality: Coaches can spectate Tournament Mode games and are locked to observing the team chosen in the custom game lobby.)

- 3.7.6. In the event of an emergency, the Team can designate an interim Main Coach. Whether or not an event qualifies as an emergency is determined at the sole discretion of the Challengers Officials. The interim Main Coach can be a Team Manager.

3.8. Player Names

- 3.8.1. A player's official nickname (Tournament Handle) or Riot ID will be selected at the time of registration and may not be changed at any time without the prior written approval of Challengers Officials.
- 3.8.2. Tournament Handles may not exceed 11 characters, including spaces, and may use upper-case letters, lower-case letters, digits, underscores, or single spaces between words only.
- 3.8.3. Tournament Handles must be unique globally. In the event of a conflict, Challengers officials will notify Teams and request submission of a new name.
- 3.8.4. A Tournament Handle may not include any word or phrase in any language that is offensive, toxic or hurtful.
- 3.8.5. A Tournament Handle may not include all or part of a corporate name or make use of the trademarks or other intellectual property of Riot, VALORANT or any third party without the prior written approval of Challengers Officials. In order to secure such approval, a player must provide a license agreement, sponsorship agreement or other documentary evidence to Challengers Officials sufficient to demonstrate to the satisfaction of the Challengers Officials that the player is properly licensed to use such third party's intellectual property. Notwithstanding any approval that may be provided by the Challengers Officials, the entire risk and responsibility for obtaining the right to use a corporate name or the intellectual property of a third party in or as part of a player's name or Riot ID shall be with the player.
- 3.8.6. Challengers Officials reserve the right to reject any Tournament Handle or Riot ID selected by a player for any reason and to require the player to select an alternate name that complies with these rules and the Global Policy.

3.9. Team Tags (Tricodes)

13. Bug and Exploit Adjudication

13.1. Types of Bugs

A bug is an error, flaw, or fault in the game that produces an incorrect, unintended, or unexpected result. There are three classifications of Bugs - Play Through Bugs, Major Bugs, and Exploits. Bug classification will be communicated via the Esports Bug List shared with each patch.

13.1.1. Play Through Bug

A bug that does not significantly alter the competitive integrity of the game. This may mean that there are mitigation steps available or the impact has been deemed insufficient to warrant a disable or remake.

13.1.2. Major Bug

A bug that significantly impacts a Player's ability to compete in the game, significantly alters game stats or gameplay mechanics, and has no reasonable mitigation steps. The determination of impact will be at the sole discretion of Challengers Officials.

13.1.3. Exploit

A bug that has the potential to significantly alter the competitive integrity of the game and provide an unintended competitive advantage. As a standard, regardless of impact, exploit usage is not permitted and if found will result in a penalty, as outlined in the Penalty Index.

13.2. Agent Specific Bugs

13.2.1. Non-limiting examples of Agent Specific Bugs are detailed in the External Bug and Exploit List. Any use of a bug or exploit specifically listed in the External Bug and Exploit List, or covered under a blanket prohibition will be considered a violation of these rules.

13.2.2. Cypher

All Cypher cam placements that afford an unfair competitive advantage via abusing map textures and/or geometry to prevent the Cypher cam from being destroyed or seen are considered banned exploits. All Cypher cam placements must result in a Cypher cam that is destructible, that is viewable by both teams, and that does not exploit map textures and/or geometry to create a one-way view that provides an unfair advantage. Any other uses of a Cypher cam that are determined by a Challengers Official to provide an unfair competitive advantage will also be considered banned exploits.

13.3. General Agent Utility Rule

13.3.1. All uses of agent utility that afford an unfair competitive advantage via abusing map textures and/or geometry to prevent the agent utility from being destroyed or seen are considered banned exploits. Agent utility cannot be used in areas that are outside of map boundaries while potentially providing any useful information or advantage at any point. Areas that are within map boundaries are defined as areas where all utility is (1) destructible as intended for that utility, (2) has the ability to be seen by both teams as intended for that utility, and (3) does not exploit map texture and/or geometry to provide an unfair competitive advantage.

13.3.2. A player shall not alter the utility's intended purpose and scope of usage by abusing map textures and/or geometry, abusing unintended interactions with other utility, unintended interactions with weapons, or other types of unintended interactions to gain an unfair competitive advantage. Any other uses of an agent's utility that are determined by a Challengers Official to provide an unfair competitive advantage will also be considered banned exploits.

13.3.3. SPECIAL EXCEPTIONS: KAY/O's ZERO/POINT ability is intended to be usable outside of map boundaries, and is a special exception regarding these rules. KAY/O's ZERO/POINT ability is allowed to be placed outside of map boundaries, and at other locations that cause KAY/O's ZERO/POINT ability to be indestructible and/or unviewable by the enemy players. However, the knife model of KAY/O's ZERO/POINT ability cannot abuse or exploit map textures and/or geometry to travel to unintended locations. For example, the knife model of KAY/O's ZERO/POINT ability may not travel through or inside map textures and/or geometry that are intended to be solid. Teams should clear specific trajectories or end locations for KAY/O's ZERO/POINT ability with Tournament Staff prior to usage if the Team is unsure whether that usage complies with this special exception rule.

13.4. Agent Character Model Boosting

13.4.1. Players are prohibited from using another agent's character model to boost to a location out of intended jumping range.

13.5. Assessment of Penalties

When assessing the appropriate penalty, Challengers Officials shall take into account the Penalty Index (past punishments for the same or similar situation), Bug Classification, Prior Communication, Impact, and Intent. The following questions and assessments shall be considered by Challengers Officials in each category to apply appropriate penalties.

13.5.1. Bug Classification

- Is the bug on the Esports Bug List, and how is it classified?
- If the bug isn't in the Esports Bug List, is it similar enough to another that a reasonable person would assume that the classification would be the same?
- If the bug isn't in the Esports Bug List and isn't similar to another known bug, Challengers Officials should use the other criteria to help inform any action.

13.5.2. Prior Communication

- Has the Esports Bug List been shared with the team and/or player?
- Was the Esports Bug List for the patch version designated by the Challengers Officials for the Challengers event shared within a reasonable timeframe for them to inform themselves and make necessary adjustments?
- If the Esports Bug List hasn't been communicated at all or in a reasonable timeframe, this should be a mitigating factor.

13.5.3. Impact

- What impact did the bug have on the round and/or outcome of the map - e.g. Damage dealt, info gained (vision, sound etc.), prevented opponents actions (bomb defusal/plant).
- What impact could this bug have on the perception of the sport? Could it bring the sport into disrepute?

13.5.4. Intent

- How hard is it to use the bug accidentally? Does it require a specific set of actions that don't occur in the normal course of play?
- Has the Player or Team received penalties for the same bug in the past?
- Did the Player or Team discuss usage in voice comms?
- Did the Player or Team notify a referee immediately after the bug had occurred?

13.6. Types of Penalties

The following list of penalties is a non-exhaustive list. Challengers Officials may, at their sole discretion, issue other types of penalties such as Fines or Suspensions on a case-by-case basis.

13.6.1. Warning

Challengers Officials may issue Warnings for a low impact first offense in order to prevent widespread usage of low impact bugs.

Warnings may be issued for unintended bugs that did not give a competitive advantage, or bugs deemed small enough to not have a significant impact on the competitive integrity of the match.

13.6.2. Round Rollback

Challengers Officials may perform a Round Rollback when a bug has had a significant impact on the outcome of the round, but the intent of the Player that performed the bug cannot be determined, or for low impact second offenses.

Round Rollbacks may be used for unintended bugs that give a competitive advantage. Challengers Officials shall evaluate the intent of the Player that performed the bug on a case by case basis. If a Player contacts an official immediately after the unintended bug occurs, then Challengers Officials shall consider issuing a Round Rollback.

Round Rollbacks may also be issued for a major bug that impacts the integrity of the round, but is not the fault of any Player or Coach.

13.6.3. Round Loss

Challengers Officials may issue a Round loss when an exploit has a significant impact on the outcome of the round, and Challengers Officials have determined that the Player or Team intended to perform the exploit. Round Losses may also be issued if a Round Rollback threshold has been exceeded, as determined by Challengers Officials.

Round losses may be applied using the following methods:

- Roll back to the round where the exploit was used and award the Team that did not perform the exploit the round win via elimination in round rollback settings.
- If rolling back isn't an option, round loss should be applied at the start of the next round. If the current round could result in the map ending, the loss should be applied to the current round.

Round Losses may be issued for intended exploits that give a competitive advantage. Intent will be assessed by Challengers Officials. If the exploit is listed on the current Bug and Exploit List given to Teams in a reasonable timeframe, the exploit will automatically be classified as an intended exploit if considered egregious.

13.6.4. Forfeit Loss

Challengers Officials may issue a Forfeit Loss for a map of the match in the following scenarios:

- An exploit had a significant impact on the outcome of a map or provided a significant unintended competitive advantage, but the map has concluded and Round Rollback and/or Remake is not possible.
- Second offenses for low impact exploits where Round Rollback and/or Remake is not possible.
- Second offenses for high impact exploits while the map is still being played, and a Round Loss has already been applied.
- Egregious cases that warrant an immediate escalated penalty, as determined at the sole discretion of the Challengers Officials.

13.6.5. Team Rules on Reviewing Exploits

Players and Coaches may request a review on bug/exploit usage. If a Player or Coach believes a bug or exploit has occurred, the Player or Coach shall immediately flag a Challengers Official and request the review. The request for the review must occur during the round where the alleged bug or exploit is used, or within the Buy Phase of the following round. The following rules apply to Players and Coaches when requesting a bug or exploit review:

- If a bug or exploit is confirmed, both teams shall be informed, and Challengers Officials shall assess the appropriate rectifying actions for the bug or exploit.
- If the bug or exploit claim is reviewed and the alleged bug or exploit deemed to not be a bug or exploit, the Team who requested the review will lose a timeout. If no timeouts remain, the Team will be given a Round Loss in the next immediate round via elimination.

13.6.6. Finality of Judgment on Bug and Exploit Adjudication

Challengers Officials have the right to assess and make final calls on all bug and exploit decisions. All decisions regarding the interpretation of these Bug and Exploit Adjudication rules lie solely with the Challengers Officials, the decisions of which are final. Challengers Official decisions with respect to these Bug and Exploit Adjudication rules cannot be appealed and shall not give rise to any claim for monetary damages or any other legal or equitable remedy.

14. Pauses & Crashes

14.1. Timeouts (Tactical Pauses)

- 14.1.1. Teams are allowed to call Timeouts of 60 seconds in duration two times per map. The 60 second clock will begin when both teams' Coaches are connected and able to communicate with their players. Timeouts can be called via the in-game pause system. In the event of overtime, each team will be granted one 60 second Timeout for all of overtime. Unused timeouts from regulation will not carry over.

14.2. Technical Pauses

- 14.2.1. Technical Pauses fall into two categories

14.2.1.1. Suspension of Play (Est. delay 10+ minutes)

Examples: player disconnected from game, monitor went black, computer froze for longer than 3 seconds (less time could classify as an equipment check), any programs crashed during gameplay, etc.

14.2.1.2. Equipment Check (Est. delay 3-5 minutes)

Examples: Mouse battery died, peripheral stopped working, audio became bugged, settings suddenly reset, etc.

- 14.2.2. If a player has a problem that prevents them from playing on, they must notify the Challengers Official and request a technical pause. The player has to announce the reason before or immediately after he requests the pause.

- 14.2.3. During a technical pause, headsets have to stay on and players are prohibited from controlling their agent (i.e., players can not move or use utility during a technical pause). Unless a Challengers Official instructs the player otherwise, any form of

communication including but not limited to text and voice communication between players and coaches is forbidden during a technical pause.

14.2.4. The in-game Referee can pause the game if for some reason the player pausing does not work.

14.2.5. Challengers Officials may order or execute a pause of a Game at the sole discretion of the Challengers Officials.

14.3. Crashes

14.3.1. If a match is interrupted for reasons beyond the control of the Players (e.g. server or player crash), the Challengers Official will restore the round using the in-game round restore feature, but in some scenarios may decide to replay the round or even a whole match.

14.3.2. If the issue takes place during the first minute of the round, before any damage has occurred and the opponent or referee has been immediately notified, the round will be restored.

14.3.3. If the issue takes place during a round and after the damage has occurred and the outcome of the round can still be determined (e.g. a single player has dropped but others remain), then the round will not be replayed or restored. The round will continue to be played and will count. Special exceptions can be made if the damage dealt was ruled insignificant e.g. accidental teammate damage dealt at the start of the round or damage dealt to the opposing side by the team that was affected by the crash.

14.3.4. If the issue takes place during the round, after damage has occurred and the outcome of the round cannot be determined (e.g. due to server crash), the match will be restored to the beginning of the round.

14.3.5. If the issue takes place during the round, after damage has occurred and the outcome of the round is obvious (e.g. one team is saving with 10 seconds remaining), but it cannot be continued due to, for example, a server crash, then the round can be awarded.

14.3.6. The matches will not be stopped and/or rounds will not be restored or replayed in cases where it is clearly a participant's fault (e.g. mis-buying a weapon).

14.4. Post-Match Process

14.4.1. Challengers Officials will confirm and record the Match result.

14.4.2. Players will identify any technical issues with Challengers Officials.

14.4.3. Between Maps

Challengers Officials will inform players of the remaining amount of time before the next Map in the Match, if applicable. For online events, the standard time for transitions between Maps is eight (8) to ten (10) minutes from the time of the last Map's Round until players are required in their seats for the next Map. For offline events, the standard time for transitions between Maps is five (5) to ten (10) minutes from the time of the last Map's Round until players are required in their seats for the

next Map. The next Map, if applicable, will commence as soon as both Teams have confirmed to a Referee or Challengers Official that all players are ready to play and, at LAN Events, in their seats.

14.4.4. Between Matches

For online events, the standard time for transition in between Matches is eight (8) to ten (10) minutes from the time of the last Match's Round until players are required in their seats for the next Match. For offline events, the standard time for transitions between Matches is ten (10) to fifteen (15) minutes from the time of the last Match's Round until players are required in their seats for the next Match. The next Match, if applicable, will commence as soon as both Teams have confirmed to a Referee or Challengers Official that all players are ready to play and, at LAN Events, in their seats. If all the players are not ready to play and in their seats (if applicable) at the time designated to them by the Referees or Challengers Officials, the Team can be sanctioned for delay of Game.

14.4.5. Players will be informed of any post-Match obligations, including, but not limited to, media appearances, interviews, or further discussion of any Match matters.

14.4.6. Matches won by forfeit will be reported by the minimum score it would take for one Team to win the Match (e.g. 1-0 for best-of-1 Matches, 2-0 for best-of-three Matches, 3-0 for best-of-five Matches). No other statistics will be recorded for forfeited Matches.

15. Disciplinary Action & Sanctions

15.1. Investigation by the Tournament Operator

15.1.3. The League shall have the right to publish a declaration stating that a Team Manager, Team Member and/or Team has been penalized. Any Team Manager, Team Member and/or Team that may be referenced in such declaration hereby waive any right of legal action against the Tournament Operator, Riot Games Limited ("RGL"), and/or any of their parents, subsidiaries, affiliates, employees, agents, or contractors for publishing such a declaration.

15.2. Sanctions

15.3. Repeated Infractions

- 15.3.1. Repeated violations or infractions are subject to escalating penalties, up to and including disqualification from participation in Official Competitions.

15.4. Finality of decisions

- 15.4.1. Unless expressly stated otherwise, all violations of, and infractions committed under, these Challengers Rules and the Global Policy are punishable, whether or not they were committed intentionally. Attempts to commit such violations and infractions are also punishable.
- 15.4.2. All decisions made by the Tournament Operator and Challengers Officials in regard to (a) violations of these Challengers Rules and the Global Policy; (b) the appropriate disciplinary action (or combination of disciplinary actions) are final and binding.

15.5. No “Safe Harbor”

- 15.5.1. Any prospective Team Member serving an active suspension, issued by an esports publisher or an industry-recognized governing body, is prohibited from participating in any official competition unless explicitly permitted by Riot.

15.6. Right of modification

- 15.6.1. These Challengers Rules and the Global Policy will be updated periodically to take account of developments in the industry, changes to the business model for esports and updates to VALORANT.
- 15.6.2. Riot may update, amend or supplement these Challengers Rules and the Global Policy and the Challengers Officials may update, amend or supplement the Challengers specific Rules from time to time.
- 15.6.3. Participation in any Official Competition will constitute acceptance of the changed rules, instructions and guidance.

16. Interpretation & Construction

16.1. Tournament Operator’s Right of Interpretation

- 16.1.1. Any matters relating to the Challengers event that are not covered by these Challengers Rules or the Global Policy will be subject to an interpretation made by Riot and the Tournament Operator and provided to the Teams from time to time in the form of an update to, or interpretation of, these Challengers Rules or the Global Policy.
- 16.1.2. All decisions made by Riot, the Tournament Operator and Challengers Officials in regard to interpretations of these Challengers Rules and the Global Policy are final

and binding.

16.2. Business Judgment

- 16.2.1. Whenever these Challengers Rules or the Global Policy grant, confer or reserve to Riot or the Challengers Officials the right to take action, refrain from taking action, grant or withhold consent or grant or withhold approval or make any other determination, unless the provision specifically states otherwise, each of Riot and the Tournament Operator will have the right to engage in such activity in its sole discretion based on its own business judgment, taking into consideration its assessment of the best interests of Riot and the Tournament Operator and the short and long term interests of the Official Competitions, the Challengers event, VALORANT and the businesses and activities of the affiliates and group companies of Riot and the Tournament Operator.
- 16.2.2. Neither a Team nor a Team Member will have any claim or cause of action based on an assertion that Riot, the Tournament Operator or any Challengers Official has unreasonably withheld or delayed any consent, approval, determination or other requested action under these Challengers Rules or the Global Policy.

16.3. Language

- 16.3.1. The original Challengers Rules and Global Policy have been written in the English language. In the event of an unintentional conflict in interpretation between the English version and such translation, the English version will control.

17. Code of Conduct

Exploiting includes acts such as making use of any game function that, in the Challengers Officials's sole judgment, is not functioning as intended and violates the design purpose of VALORANT. Team members may confidentially check with the referee at the beginning of a Competition to determine if a specific act would be considered

Exploiting. Riot reserves the right to make an ex-post-facto determination of whether an exploit has occurred.
